

20kW Photovoltaic Combiner Box for FTTH Use

Overview

Solar Array Combiner Box 125A 1000Vdc 6 Strings 20KW - Prewired This Solar Array Combiner Box provides a convenient solution for large PV solar array installations. Our DC combiner boxes offer users the possibility to integrate short-circuit and overvoltage protection, as well string monitoring solutions (I,V, T and SPD and switch isolator status), for PV systems using central inverters with PV panels in trackers and fix tilt systems. Weidmüller has a proven. DC Combiner Boxes for photovoltaic systems The DC Combiner Box collects and distributes the string currents from the solar panels. The combiner box supports a maximum of 24 string configurations, it is suitable for 1500V DC system. ABB offers a plug & play solution that accommodates overcurrent protection devices, disconnectors and surge protective devices (SPDs) in one solar combiner box. This simplifies the connection to the inverter, which converts DC power to alternating current (AC) for use in homes and businesses.
