

288 core lc interface fully equipped

Overview

The 288 port fiber patch panel ODFL288LC is a rack mountable fiber patch and splice panel designed to accommodate up to 288 terminations/splices. Standard panels are available in loaded and unloaded. The Excel Enbeam 1U 19" HD panel provides an expandable and innovative cassette based patching solution. Each panel has a maximum capacity of 12 cassettes, which are snapped into position quickly, easily and without tooling. High-Density Panel Fiber Splice Enclos. Amphenol Network Solutions' bulkhead-style fiber optic panels provide cost-effective patch capabilities in an. NG4access ® Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access ® Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Each fusion module can be extracted separately, meeting the requirements of off frame or on frame operation Ningbo Geteknet Telecom Equipment Co.
