

# 30kW Distribution Box Specifications

## Overview

30KW power distribution unit with 9 AC 220V output channels, supports manual and remote control via multifunction card. Features DIN-mounted breakers, IP44 rating, and supports LED display cabinet management. This lusterless forest green unit allows operators to use 208Y/120V 3-phase power and supports four 560R9W IEC 60309 Pin & Sleeve outlets. The 30 KW PDP is designed to accept power at 120/208 VAC, 3-phase, utilizing a 100 amp Class-L connector. PDPs are used to provide power to equipment requiring 120/208 VAC electrical power. Equipped with protection features including over-voltage, surge, short circuit, over-c

The 30 kW AMEPDIS unit is a 120/208VAC, 60 Hz, 3-phase system that accepts multiple AC electrical inputs from larger power distribution units (PDUs), as well as single or paralleled power generation sources. Through the digital interface, AMEPDIS displays operational parameters, such as voltage. Wire setting up and structure are simple and clear, and it is very convenient to install and use. to adopt the time-delay power transmission function can effectively avoid the load on the network. Can be Start and stop by on-site buttons. operation can also be switched by external control. 1- 2+ 2- Projoy DC&AC Distribution Boxes For C&I Rooftop PV Plants ( $\geq 6$  strings,  $\geq 30$ kW) Projoy Electric Co. Add: 2nd Floor, Building 3, No. com Tel: +86-512-6878 6489 Email: sales@projoy-electric.
