

# 96-core MPO terminal box

## Overview

MPO 96 core patch panel is an economy and high density 1RU panel that transitions between MPO and LC or connectors. This patch panel is used to interconnect MPO backbones with LC patch cords. The panel faceplate features LC adapters and the rear of the cassette. MPO 96 core patch panel is an economy and high density 1RU panel that transitions between MPO and LC or connectors. This patch panel is used to interconnect MPO backbones with LC patch cords. The panel faceplate features LC adapters and the rear of the cassette. MPO optical fiber distribution panel frame, used for data center MDA, IDA or HDA distribution area optical fiber backbone connection and wiring management, installed in 19-inch racks and cabinets, can install pre-connected MPO adapter module or MPO Adapter front panel. Installed in 19-inch racks. 1U MPO/MTP fiber optical patch panel can be installed with 4 MPO/MTP cassette modules, up to 96 cores. Explore the details, specifications and video of our High Density. High-density 19-inch MPO MTP patch panel with 96 cores in a compact 1U rack design, ideal for efficient fiber optic network deployment. Optical System Access network 3. Asynchronous Transmission Mode (ATM) 6. Trunks can be manufactured to any specification for compatibility with any brand or manufacturer along with the capabilities for 12 to 72 fiber ferrules for any 10 / 40 / 400 / 800G application.
