

Afghanistan DAC High-Speed Cable 10G

Overview

The AMG SFP-DAC-10G series are industrial high speed Direct Attach Cables (DAC) offering transmission of 1Gb or 10Gb Ethernet data using passive Twinax cable technology over distances from 0. These cables offer a cost-effective and efficient solution for short-distance connections within data centers, storage area networks, and. DACs are widely chosen by data centers for connecting servers to the Top Of the Rack (TOR) switch as they are passive, consume zero power, have the lowest latency and cost-effective. The modules are compatible with most 1000BASE-X SFP ports and 10GBASE-R SFP ports. Here is a purchasing guide for 10G Passive High-Speed Direct Attach Copper Cables (DAC). It will guide you step-by-step through confirming three core elements: protocol, transmission distance, and device compatibility.
