

All Electrical Cable Trays

Overview

Cable trays support insulated electrical cables in industrial and commercial settings. There are several types of cable trays, including ladder, perforated, solid bottom, basket, and channel trays. Each cable tray type performs a different function and comes in various materials such as aluminum. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Combining local manufacture and distribution with an extensive product range, these facilities ensure we. A cable tray system is an essential part of modern electrical installations, designed to support, protect, and organize electrical cables efficiently. Medium Duty Cable Tray Couplers Wrap over design - fits to the ends of Medium Duty Cable Tray For Joining 2 lengths of cable tray on a straight run Pre Galv Steel - British Standard Specification.
