Electricity sector in Argentina

OverviewTransmission and distributionElectricity supply and demandAccess to electricityService qualityResponsibilities in the Electricity SectorRenewable energy resourcesHistory of the electricity sector

In Argentina, there are two main wide area synchronous grids systems, SADI (Sistema Argentino de Interconexión, Argentine Interconnected System) in the North and center-South of the country, and SIP (Sistema de Interconexión Patagónico, Patagonian Interconnected System) in the South. Both systems are integrated since March 2006. The electricity market in the SADI area is managed by the MEM (Mercado Eléctrico Mayorista).
