

# Calculation of material cutting for distribution box body

## Overview

Free online cut list optimizer and material calculator. Minimize waste and maximize efficiency when cutting wood, metal, fabric, and more. Please define at least one tube/box size above before adding parts Enter your specifications and click "Optimize Cut Plan" to see the optimized cutting. SmartCut. Pro is a user-friendly online calculator designed for optimal linear material cutting. Simply enter the dimensions of your stock materials and required parts, and the. The CutWize cut list calculator handles the complex math of nesting and bin packing, instantly showing you exactly where to make every cut. Just specify material length, cutting kerf (if needed) and enter required parts lengths and quantities. The calculation can be influenced by setting various parameters, such as the kerf, the method of dividing by cutting, the width of the trimming of material edges, etc.
