

Category 6 Cable Management Rack

Overview

It is an all-in-one cable management solution consisting of 24 retractable Cat. Our innovative system enables 10x faster installation & maintenance and thanks to our Patchcatch it also allows up to 50% more space. Our patented and. Modern network racks face new physical constraints: deeper switches, hotter PoE++ loads, and thicker Cat6A cabling. A standard 48-port PoE++ switch now generates 600W+ of heat—equivalent to a small space heater inside your cabinet. Surplus cable lengths – whether CAT 6 or fibre-optic – are simply withdrawn with a spring balancer. This is a new product which is currently not yet available from stock. The. PatchRunner 2 Enhanced Vertical Cable Manager with Vertical Patching and PatchRunner 2 Vertical Cable Management Systems address the needs of the data center and telecommunications rooms to deliver improved network performance and reduced real estate costs. Superior cable management features and. Siemon's economical Value Rack System combines a durable 2-post rack with a vertical cable manager for securing equipment while making cable routing and organizing a breeze and saving time, labor and space From adjustable-depth 4-post racks for mounting extended-depth equipment in the data center. Speed up deployment time and maximize space with Belden's cable management options, designed to optimize cable bandwidth and provide for maximum cabling density.
