

Characteristics of Italian cable trays

Overview

Their cable trays are engineered to withstand high loads, making them suitable for industrial plants, energy facilities, and infrastructure projects. Their focus on durability and innovation is evident in their use of corrosion-resistant materials. We manufacture metallic cable tray systems in the following types: solid bottom cable trays (perforated and closed), ladder trays and mesh trays, in different structural dimensions and material qualities. The standard commercial proposal is integrated by the creation of customized solutions. Schiavetti Tekno, part of Spina Group, is a leading Italian manufacturer of cable trays and accessories for electrical and instrumentation systems. Their expertise ensures reliable cable management systems.
