

China-Africa Cable Management Company

Overview

PEACE Cable operates a submarine cable system spanning over 25,000 km, offering customers open, flexible, and carrier-neutral services. Since 2022, PEACE Cable has been providing capacity services in Africa and has become a significant international connectivity provider between. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy,” said Jessica Gu, Director & Chief. 2024 is set to see a number of highly anticipated submarine cable systems go live this year, from unlocking the African connectivity market with 2Africa to diversifying communications between APAC and Europe. As we enter 2024, the global requirements for fast, secure connectivity continue to. China Mobile International (CMI) and seven global partners — Bayobab, center3, Meta, Orange, Telecom Egypt, Vodafone Group, and WIOCC — completed the core 2Africa submarine cable system, creating a continuous east-west link around Africa within a single system. Stretching more than 45,000 km and. HONG KONG, Nov., Limited (PEACE Cable) have forged a strategic alliance in a landmark agreement set to reshape the digital landscape.
