

Connection of Multiple PoE Switches

Overview

In order to extend long distance network, it's common practical operation to use fiber optical cable to link two PoE switch. PoE switch, Fiber optical cable, SFP module, media convertor are all the required equipments to complete the setup. Power over Ethernet (PoE) technology simplifies infrastructure by delivering both data and electrical power through a single Category cable. Can you link them together?

The short answer is yes, but there are. PoE technology or PoE switch is commonly used for home and business networking system setup due to its numerous advantages. By connecting these switches, you can. more why Power over. How can you connect two different PoE switches with an Ethernet cable (RJ-45)?

If you connect port 1 of (SG350-10MP 10-Port) to port 1 (Cisco C1000-8FP-E-2G-L), the connection will fail after a few minutes.
