

Distribution box 18-position metal model

Overview

The HT-18 Distribution Box is used to protect MCB and other electrical components in a neat finish. It is made of high impact resistant material – HIPS, ABS, ABS-V Fire resistant. Internal boxes install 18 modules on a single DIN rail. MP/MN electrical panels are constructed entirely from sturdy metal and comprise the following components: Bottom: Ensures the boxes remain stable and secure on the wall, preventing any twisting. Futina FTAMG series, with plastic panel and iron box, and the color for the box can be customized too. This product is applicable to the modular terminal circuit with AC of 50Hz, rated voltages of 220V and 380V. They are available in DIN-rail designs for indoor applications. Features ○Made out of high quality. As one of the leading enterprises in the low voltage electrics field in China, SASSIN International electric Shanghai Co. With its adjustable din-rail and ultra-large space box for easy wiring, the HT-18 is used. DISTRIBUTION BOX FLUSH MOUNTING METAL BASE 18 WAY brand ELMARK with warranty.
