

Distribution box air switch

5-INCH COLOR TOUCHSCREEN

Intuitive operation, easily accessible with just one touch

Industrial-grade CPU
sensitive response
1 second startup
Smooth experience

Overview

1, the general switch of the household distribution box can generally choose double-pole 32-63A small air switch or isolation switch. Up to 8 indoor units can be connected to one port. The smallest switch box. High quality guarantee: the surface-mounted fuse box is mainly made of high-quality nylon + ABS + PC material, which is flame retardant, impact resistant, of high hardness, not easy to break or damage, and ensures long-term use. So now a friend asks such a question: why is an air switch called an air switch?

What does it have to do with air?

To understand this. The Air Conditioning Distribution Box is a critical electrical component that centralizes power distribution for cooling systems while providing protection and ease of maintenance.
