

# Distribution box ground busbar red

## Overview

The red and black 12V distribution block busbar box is rated for 300A in 48V DC / 300V AC and comes with 4xM10 or M8 size terminal studs. A Busbar is a clever bit of kit used to make complex power distribution easier, less expensive, and more flexible. Electrical busbars come in various forms such as solid bars, flat strips, or insulated combs. Simplify your panel wiring and ensure electrical safety with our universal ground bar, accommodating. The spacing insulators can be used for installing different fuse sockets, rails, distribution- and switching electric boxes, furthermore other indoor electric devices within the rated voltage range. They are lighter than porcelain insulators and require less space. Burndy offers custom bus bar lengths up to. We specialise in the manufacture of copper bus bars, earth bars, copper laminates, copper braid, braided copper links, solid copper links, computer server earthing and earth straps. Our Bus Bars are perfect for the electrical.
