

Dual-core terminal box 1u

Overview

High density, 1U distribution capacity up to 48 cores, 2U up to 96 cores (dual-LC adapters). Drawer-type structure for easy operations and maintenance. Adaptable to FC (D type), SC, LC (simplex and duplex), and ST adapters, via choice of adapter panel. For a low cost and easy to install server, these 1U rack servers have either a 1-socket or 2-socket configuration, while coming in a comprehensive range of servers around AMD, Intel, and Ampere processors. 45mm) in height and 19" (482. 6mm) in width, these servers are easy. This fiber optic splitter box is 19inch, 1U, suitable for 19inch fiber optic cabinet. It is made of cold-roll steel material. It is used for the termination. Splice boxes and splice distributors are essential for a reliable fiber optic cabling system and serve as a connecting point between the fiber optic installation cable and the in-house network.
