

Ecuadorian Active Optical Cable 400G

Overview

Supporting QSFP-DD and OSFP interfaces, our 400G AOCs provide a cost-effective alternative to transceivers for in-rack and row connections. The QSFP-400G-AO03 active optical cable is an 4-channel, pluggable, parallel, fibre optic 400G QSFP112 AOC. Thin and lightweight AOC cables simplify cable management, enabling an efficient system airflow, which is. Multichannel AOCs combining our vertically integrated VCSEL array technology with standard QSFP and SFP+ connectors. They feature low power consumption, low weight, and a small bend radius for easy installation, even in high port count architectures. Multichannel AOCs combining our vertically. BlueOptics offers premium 400G Active Optical Cables (AOC) and Direct Attach Copper (DAC) cables, specifically designed for QSFP-DD (Quad Small Form-Factor Pluggable Double Density) and OSFP (Octal Small Form-Factor Pluggable) form factors. Supports 400 Gbps data rate links up to 70m/100 m via OM3/OM4, respectively.
