

Estonia fiber optic cable outage

Overview

On 17-18 November 2024, two submarine telecommunication cables, the BCS East-West Interlink and C-Lion1 fibre-optic cables, were disrupted in the Baltic Sea. The incidents involving both cables occurred in close proximity to each other and near-simultaneously, which prompted accusations from. Finnish authorities have confirmed that a submarine communications cable connecting Finland and Estonia suffered significant damage on December 31. Photo: Soome piirivalve The vessel's speed dropped sharply in the vicinity of the Elisa cable. On Friday it said it had asked the transatlantic military alliance for support Oil tanker Eagle S is moored at. TALLINN - Estonian companies Elisa Eesti AS and CITIC Telecom CPC notified the Estonian Consumer Protection and Technical Regulatory Authority (TTJA) on Wednesday evening about outages in three submarine communication cables between Estonia and Finland. Finnish authorities are actively investigating the incident, which has raised fresh concerns about the resilience of critical undersea.
