

Fiber optic cable in Congo

Overview

The Democratic Republic of Congo (DRC) has launched a €66.55 million fibre optic cable project, a significant leap towards enhancing its digital infrastructure. Funded by the African Development Bank (AfDB), the initiative boosts the country's ambition to become a digital hub in the Central African Backbone (CAB) sub-regional project, born from the will of the heads of state of the CEMAC zone, aims to put digital technology at the service of the populations, by opening up the isolation of departments and promoting digital inclusion. As a national project, the CAB project's 16 March 2023: The Paratus Group subsidiary in the Democratic Republic of Congo (DRC), Fast Congo, announces that its 620-kilometer fiber optic network link between Muanda on the West Coast and the capital, Kinshasa, is now active. The fiber link will deliver high speed connectivity to the region. The project consists in the construction of 10,000 km of fibre-optic cables as part of a regional backbone in 5 countries, including backbone as well as metro networks. Despite a notable compound annual growth rate (CAGR) of 13. Interconnection Works Of Municipal Buildings Using Fiber Optics.
