

# Fiber optic patch panel 32

## Overview

Apcon IntellaPatch 32-Port Intelligent Fiber Optic Patch Panel ACI-2050-C32,Manages 32 fiber optic connections with monitoring and remote control. Simplifies network management and maintenance. Precision RF and optical test equipment sales, calibration, and repair by Aumictech. It serves as a central hub for fiber optic cables, which transmit data over long distances with minimal signal degradation. This data center network technology provides high-bandwidth, low-latency, non-blocking server-to-server. Fiber optic patch panel with DWDM multiplexer and demultiplexer, terminated in LC/PC connectors. DWDM may be delivered in several types of panels and. Low insertion loss, Low PDL and High reliability High return loss and Good repeatability Wide wavelength range Excellent channel-to-channel uniformity LAN, WAN and Metro Networks FTTH project & FTTH Deployments CATV System GPON, EPON Fiber Optic Test Equipment Data-base Transmit Broadband NetA 32-core fiber optic patch panel is a high-density termination and management solution used in modern network infrastructure.
