

Fully Prefabricated Optical Cable

Overview

Choose pre-terminated multi-strand fiber cables, patch cables/panels, Active Optical Cables (AOCs), & bulk fiber cable. Eliminate time-consuming, labor-intensive field termination with pre-terminated fiber assemblies. Quality cable solutions by Telegärtner deliver the performance, flexibility and reliability that developers and users need for a long, disruption-free service life. Easy-to-install prefabricated and modular solutions for needs-based installation and simple extensions even during system operation. No special knowledge or tools are needed to install HELUCOM® pre-assembled fiber optic cables. As a result, the installation process actually comprises nothing more than laying the cable itself. The double-sided PreCONNECT square-interface enables tool-less mounting by simple. Our EDGE™ solutions were the industry's first preterminated optical cabling systems specifically designed for the data center environment. Our EDGE8® solutions combine all of the density, simplicity, scalability, and modularity of Corning's EDGE solutions with the superior network scalability. Vertiv's pre-terminated fiber optic cable is a high-density fiber optic connector MPO/MTP and fiber optic cable factory terminated, test field plug-and-play, supporting rapid deployment in user data centers.
