

Growth rate of optical modules in 24 years

Overview

According to Cognitive Market Research, the global Optical Modules market size was USD 9425. It will expand at a compound annual growth rate (CAGR) of 14. The Optical Modules Market encompasses the design, manufacturing, and deployment of compact, high-performance devices that facilitate. The global optical modules market was valued at \$14. 5% during the forecast period from 2026 to 2034. This growth is primarily driven by the increasing demand for high-speed internet and data transfer capabilities across various sectors. •AI infrastructure race fueled a Capex surge in 2024 to approximately \$200bn •2025 Capex Projection to near \$350bn and 2030 Capex projection to near \$545bn •Capex funding facilities expansion, xPU acquisition •Expectations of continued growth through 2030 with generative AI adoption both at the. The optics module market is experiencing robust growth, driven by the increasing demand for high-speed data transmission in various sectors.
