

High-speed fusion splicing optical cable equipment manufacturer

Overview

The best splicers offer core alignment, fast splice times, durable designs, and smart features like cloud syncing and automated calibration. We are the world's leading manufacturer of telecoms and specialty application splicers. With over 40 years' experience developing splicing technology, we are renowned for our innovative, high quality fusion splicing equipment. As the official support center for Fitel splicers, OFS. Fusion splicers are essential for creating low-loss, high-performance fiber optic connections in telecom, FTTH, and data center applications. 's Fusion Splicing machines, enjoy the advantage of low insertion loss, high return loss, and superior splice. FiberMASTER S60 and S40 Fusion Splicers offer superior splice performance in as little as 6 seconds. The new Fusion Splicer Series delivers exceptional. AFL proudly supplies and services the premier fusion splicing product line offered in North America-Fujikura's fusion splicing solutions.
