(Cat7 + RJ45 Modular. This involves using heat to join two fibers together. The bulk fiber cable will be joined to a short length of matching fiber where the connectors have been pre-installed polished, and tested at the factory (fiber pigtail). Proper handling, routing, cleaning, bend-radius management, and connector alignment ensure that the optical link meets design. NS Comm provides enterprise-grade fiber optic patch cables engineered for maximum reliability and low-loss performance. However, proper installation techniques are essential to unlock their full potential.
