

# How to connect an 86-type fiber optic connector

## Overview

Install connectors into the adapter by aligning the latch on the connector with the slot on the adapter and gently push into place. If a high-loss condition exists, use the LC cleaning procedures and reinstall the connector as. Are you interested in seeing how fiber optic connectors get mechanically plugged into an adapter?

This video goes over common types of connectors, their respective adapters, and how to properly connect and disconnect them. The fiber connector types, sometimes referred to as terminations, link fiber optic cables together through terminals, switches, adapters, and patch panels, by bridging the gap between their. There are many types of fiber optic connectors, including SC, LC, FC, ST, D4, MU, MT/MPO, etc. To learn more about the types of fiber optic connectors, click here: [Types](#).
