

How to connect an FC pigtail to a router

Overview

A Fiber Patch cord connects two devices. It's ready to use out of the box. The fiber optic pigtail is a short terminated optical fiber with a connector on one end, used to facilitate easy connections between fiber optic cables and various devices. This article will show you what a fiber optic pigtail is. Whether you're building out an ODF. Same as the optical jumper, when the connecting line is an optical cable (mostly indoor optical cable) and passes the standard test line, it is called an optical fiber pigtail. So, what is pigtail?
