

How to reset a digital fiber optic sensor

Overview

To return settings to factory default, press and hold the SET and PRESET buttons simultaneously for 3 seconds until the setting display flashes "rSt". Are you trying to initialize your KEYENCE FS-N40 Series fiber optic sensor or reset it to the f. more Learn more via the catalog: <https://www.> Providing quick solutions for every scenario. Common configuration methods are summarized in the "Basic" section with easy to understand instructions. 1 Attach the main unit to the optional mounting adapter (OP-88245), and then insert M3 screws into the two locations shown in the figure to secure the main unit in. Keyence FS-V31 is a versatile fiber optic sensor offering a range of detection modes, including normal, dynamic sensitivity correction (DSC), area detection, and edge detection. "Factory Default Setting (Default Value) List" on page 6-6.
