

Huawei Fiber Optic Panel F30

Overview

HUAWEI FTTR F30 is a router series for home networks that is based on the Wi-Fi 6 technology FTTR (fibre to the room). Fibre-optic connections, 360-degree antennas and innovative Wi-Fi algorithms provide wired and wireless gigabit networks in every room, ensuring good coverage. It extends the ultra-gigabit Wi-Fi roaming. In addition, abundant all-optical components and component affecting the home decoration and appearance. (*MFU: Master FTTR UnitSFU: Slave FTTR Unit) optimal hotspot. As 200 Mbps or higher bandwidth becomes the mainstream and requirements for services such as online education, video, VR, e-Sports, and smart office increase sharply, users need Wi-Fi that supports high bandwidth, low latency, wide coverage, and multi-user concurrent access, driving operators to. Huawei's fiber to the room (FTTR) solution extends fibers to rooms and provides various gigabit Wi-Fi 6 master/slave FTTR units, all-optical components, and optical cable routing tools.
