

Huawei Optical Module Gigabit Dual Fiber

Overview

Huawei SFP-10G-LR compatible optical transceiver is a dual fiber 10. In the AI era, Huawei provides a full range of GE to 800GE optical modules, featuring three major capabilities: Spanning (ultra-long transmission), Stable (ultra-high reliability), and Secure (ultra-solid security). Together, they ensure resilient data center interconnectivity and empower. Single-fiber bidirectional (BIDI) optical modules must be used in pairs. For example, SFP-10G-BXD1 must be used with SFP-10G-BXU1. is a telecommunications network solutions provider. SFP+ LR provides 10Gb/s throughput up to 10km over single-mode fiber (SMF) using 1310nm wavelength. This transceiver is fully compliant with SFP+. Every payment you make on Alibaba. com is secured with strict SSL encryption and PCI DSS data protection protocols Claim a refund if your order is missing or arrives with product issues, plus free local returns for defects on qualifying purchasesHuawei SFP-1.
