

Hungarian OPLC optical cable manufacturer

Overview

was established in 1995; however, it had been present under another name since 1993. Its business activities in the field of fiberoptic networks include trade, manufacturing, network construction, and from 2002 on, optical instrument calibration. Unoptix specializes in high-quality optical transceivers and accessories, offering scalable telecommunications solutions that enhance network performance. Our products are used for construction of. PeMaC Kábeltechnika Kft. In the 7,000 m² area of our factory, hundreds of production line. Browse our complete line of available passive optical cable assemblies, passive devices & components and optical network related services by navigating through the menu above. The site is being constantly updated, so be sure to check later as well for more products and services! Physical: H-3021. ATL Zrt. - Advanced Technology of LaserWe are the official hungarian service partner of Corning Fusion Splicers since september of 2008. We received from the factory the "C" level service title for the following products: Please feel free to contact us about the service of the above products! construction of RFTS systems, consult.
