

Iceland Liquid-Cooled Switch 100G

Overview

The VX6940 is a 6U VPX non-blocking L2/L3 switch built around a Broadcom® 72 × 10GbE port high-density switch with 100G uplinks capability offering 720 Gb of I/O bandwidth. The DynaNET 100G-01 is a high performance switch for Automotive and rugged applications, where extreme levels of performance, reliability and compactness are required. Delivers 16x 40/56/100GbE ports over QSFP28, and with breakout cables up to 32x 50GbE or 64x 10/25GbE ports for a total throughput. FS 100G Switches offer high programmability and scalability, designed for large enterprises and hyper-converged infrastructure (HCI) networks. Compliant with VITA65 / SLT6-SWH-14F16U1U15U1J-10. 1 slot profile, it offers front and rear connectivity in air-cooled and. WILDSTAR 100GbE 6E10 6U OpenVPX Switch is a rugged 6U board that provides switching between backplane slots of multiple channels of 100Gb Ethernet. It also has front panel I/O which can be used to connect the system to external data sources. The density of data center deployments keeps increasing to satisfy the growing demand for. Energy-efficient technologies offer the following benefits: · Reduced total energy consumption and emissions, and therefore reduced costs through green designs. · Extension of devices' lifetime by differentiating busy and idle periods.
