

Inquire about outdoor type of multi-purpose container rack

Overview

Outdoor cantilever racking is a storage system designed for accommodating lengthy and bulky items like lumber, steel pipes, construction materials, and more. To facilitate outdoor storage of goods and products, we offer roofing and cladding solutions for racks and shelving. Almost any cargo can be carried in our containers. Whether the goods are loaded in bulk, bags, or cartons in standard containers, or out of gauge goods and project cargo on flat racks, or fruit, meat, fish and other goods requiring temperature control in reefer containers, cMA. A special type of shipping container designed without a roof or side walls, having only fixed or foldable end walls. ISO Code Breakdown Example – 42P3 04. There is also a type. The Multi Purpose Container distinguishes itself by its versatility in transport, storage and construction site use.
