

Italian OEMEPON device 40G

Overview

This weapon uses two OTOBreda 40 mm/L70 guns and is used on many types of warship from fast patrol boats to frigates. In service in Italian, Argentine, South Korean and other navies. Type A mount has a 736 round magazine with deck penetration. The Marlin 40 is a state-of-art and fully digitalized small calibre naval system able to meet the current requirements. New standard issue. These guns are much faster reacting than the World War II era Bofors 40 mm/56, but perhaps their greatest feature, at least when used in the anti-missile mode, is their higher accuracy. Breda claims that a twin Fast Forty, firing 900 rounds per minute, can kill an incoming supersonic missile flying. Leonardo is set to unveil its newest OTO Marlin 40 naval defence system for the first time at the 2018 edition of the Doha International Maritime Defence Exhibition & Conference (DIMDEX) in Qatar. SIMAD also produces special purpose 12-gauge cartridges, Cal. 40 mm cartridges with special non-lethal anti-riot, anti-crime and. In 1980 OTO Melara developed an experimental model of the OF-40, designated for export. The OF 40 Tank, 36 of which were sold to the United Arab Emirates, has a great importance, representing the first MBT completely designed and realized in Italy after World War II. The OF 40 can be regarded as.
