

Low-voltage motor distribution box

Overview

LV distribution boards, part of the electrical distribution system, securely distribute low-voltage power to facility circuits. Integrated with ACBs and MCCBs, they provide protection from overloads, short circuits, and others. www.eaton.com/lowvoltage/catalogs Refer to the Industry Mall for current prices www.eaton.com/industrymall The products and systems listed in this catalog are developed and manufactured using a certified quality management system in accordance with DIN EN ISO 9001:2008. They also centralize power distribution monitoring and management for. Eaton's low-voltage switchgear offers a wide range of innovative designs providing safe, intelligent and flexible solutions to optimize operational performance, enhance safety and save space.
