

Malta Active Optical Cable QSFP

Overview

The QAOC-10G4F1A is a 40Gb/s, hot pluggable active optical cable for Infiniband and Ethernet data transmission. It provides full duplex, parallel interconnects: 4 transmitting / 4 receiving data lanes and supports distance up to 100 meters. The acronym QSFP stands for Quad Small Formfactor Pluggable, and QSFP is a family of connectors and cable assemblies that share a mating interface. This AOC is compliant with the SFF-8436 QSFP+ MSA standards. It provides a cost-efficient solution as compared to using discrete optical transceivers and optical patch cables and. QSFP cables are high-speed transceiver and cabling solutions that combine four lanes of data transmission in one compact form factor. Originally designed for 40G Ethernet (QSFP+), they have evolved to support 100G, 200G, and 400G speeds with new standards like QSFP28 and QSFP-DD. Built with bonded multi-mode or single-mode fiber, these cables deliver secure, low-latency.
