

Moroccan Optical Module Component Assembly Plant

Overview

The facility, located in the city of Al Hoceima, northern Morocco, is operated by Almaden Morocco and now boasts a capacity of 1 GW, up from 500 MW. It is the largest solar module manufacturing plant in Morocco and North Africa. This development represents another milestone in the. MSC is a Moroccan company that develops projects for the production of the latest generation of photovoltaic modules in Morocco. With an international team with years of experience and a large network in the PV industry, the entire value chain from silicon to the finished photovoltaic module is to. In 2009 the Moroccan government established the Moroccan Solar Plan (MSP), aiming at the installation of large scale solar power plants with a cumulated capacity of 2,000 MW until 2020. Furthermore, it includes an integrated development strategy to strengthen the local industry participation. This inauguration is chaired by Mr. Moulay Hafid Elalamy, Minister of Industry, Trade, Green and Digital Economy of Morocco.
