

Morocco Fiber Optic Communication Cable Blowing Project

Overview

The implementation of the historic Europe-Africa submarine cable between Morocco and Canary Islands is taking shape. Morocco has taken a significant step toward strengthening its digital infrastructure with FBR Cables' launch of a major new industrial platform aimed at boosting domestic fiber optic cable production. Moreover, it will position the archipelago as. A new factory making fibre optic and network cables has opened in Berrechid, in a step aimed at boosting Morocco's digital infrastructure A new factory making fibre optic and network cables has opened in Berrechid to boost Morocco's digital infrastructure and local industry. Backed by advanced production capabilities, we deliver certified quality, controlled lead times and local technical support. FBR CABLES inaugurated its new industrial. The Morocco Cable Blowing Equipment Market is experiencing steady growth driven by increasing investments in the telecommunication sector and infrastructure development projects in the country.
