

# Network rack location pricing information

## Overview

Single-server/low-U plans can start under \$99-\$199/mo depending on market and power; pricing scales with amps/kW, bandwidth, and extras. Rack pricing varies by city (power & real estate): primary U. markets can range widely; smaller footprints cost more per kW than 250-500. In this in-depth guide, we break down the key aspects of colocation pricing. By the end, you will have the insights needed to choose the right colocation provider for your business. This will help you make a smart, cost-effective decision while keeping your technology infrastructure in reliable. Average cost per rack in colocation ranges from under \$500/month to well over \$5,000/month, and the gap isn't random. It's a function of market, power density, bandwidth model, contract term, and whether the salesperson on the other end of the phone thinks you're a sophisticated buyer or a. Most data center colocation providers hide pricing behind request-for-quote (RFQ) processes. Colocation pricing. We rent space (10U or 20U) and full rack cabinets in the most popular, best-connected datacenters.
