

Price of Four Optical Cable Fusion Joints

Overview

Fusion splicing typically runs \$50-\$150 per splice point. Full breakdown of what drives cost - fiber type, access, contractor overhead, and testing. Fusion Splicing: This method involves aligning two fiber ends and using an electric arc to melt them together, creating a. Fiber splicing technicians have specialized training that makes them expensive when compared to someone simply plugging things in. 80% of costs for an FTTP deployment go to labor. As it turns out, fusion splicing makes a lot of sense for trunk fibers and locations where there are anywhere from 48. This is why we offer a range of different Certified Pre-Owned fusion splicers to help you get the equipment you need at a fraction of the cost. All our used fusion splicers for sale have been fully checked, certified, and calibrated to ensure the highest quality. Find wholesale fiber optic cable joint, data communication cable, and much more at Alibaba.
