

Price of high-altitude cable tray laying

Overview

TL;DR: Basic wireway systems cost \$8-15 per linear foot, while heavy-duty cable tray installations range from \$12-25 per foot including materials and basic installation. Costs vary based on tray material (steel, aluminum, or fiberglass), size, design (ladder or solid bottom), and installation complexity. Use Cable Tray Nut / Bolt for Fixing to Tray (PNB612) Compatible with Brands such as : Unstrut |. Each cable tray type carries its own cost behaviour. Ladder type cable trays are built for heavy-duty routing. In power-heavy areas, they prevent failures that would be far more expensive than the tray itself. But with a variety of options available, selecting the most can be a challenge. This blog post dives deep into the cost considerations of cable trays. During my practice on a job site, it may require three times as long to pull the wires in a long pipe as it would take to simply lay them in an open tray.
