# Prisma Distribution Box

## Overview

PRISMA E low-voltage distribution box by Schneider Electric is designed for applications up to 630A. Built with modular components, it seamlessly integrates with Schneider's product ecosystem to deliver high-performance, cost-efficient, and standardized distribution panels. Explore Schneider. Browse our products and documents for Prisma Plus P - Wall-mounted and free-standing enclosures for electrical LV switchboards up to 3200ASchneider Electric has developed a modular, module-based, multi-purpose low-voltage distribution cabinet that incorporates standardized application concepts. Featuring industry-leading technical specifications and product performance, it meets customers diverse application requirements across. The global market for industrial electrical distribution systems, including Schneider Prisma products, is experiencing robust growth driven by digitalization, energy efficiency mandates, and infrastructure modernization.
