

RFM Distribution Box

Overview

The Klotz POWER-LK-RFM is a professional 4-channel power distribution box for truss and stage use. Thanks to its compact and ergonomic housing, easy and safe connection, even with gloves, is guaranteed. The ultra-light plastic housing is shock-absorbent and resistant to falls from. Feeder boxes are precast refractory liners designed to evenly distribute molten metal into casting dies above low-pressure die casting stations. With an RF distribution amplifier, this system is also used to deliver a centralized reference signal to a. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. High-quality materials and robust product designs ensure a reliable connection, signal transmission and power. RF Matrix Routers, RF Matrix Switches, Redundancy Switches, Splitters and Dividers, Switching Systems, L-Band Frequency Converters, Relay switches and Redundant Power Supply systems for Satellite, VSAT, Telecom, Cable Headends, Military Communications and Video Distribution. ■1979: RFM was founded by three research engineers from Texas Instrument, including the co-inventor of SAW resonator. We have facilities in Carrollton TX, San Diego CA, Ottawa Canada and.
