

Requirements and Standards for Purchasing Export Distribution Boxes

Overview

To comply with global distribution box regulations, you must meet region-specific standards including UL/NEC 1 in North America, IEC/EN standards 2 in Europe, AS/NZS 3 in Australia, and various Asian requirements. Different countries and regions enforce vastly different packaging requirements regarding food safety, material composition, labeling, sustainability, and waste management. It is the expectation of Adient that all suppliers of Direct Materials and quality relevant indirect suppliers comply with all of the requirements and are available to all team members. Each requires specific testing for electrical safety, environmental protection. Learn how export packaging protects goods, meets regulations, and ensures safe, cost-effective global shipping for your business. Packaging in export is your product's armor during foreign trade. Every shipment entails loading, unloading, piling up, and exposure to various weather conditions. The ISTA (International Safe Transit Association) is an international organization specializing in the research and development of global shipping packaging standards.
