

Standard for Labeling Distribution Box Models

Overview

ISO 780:2015 specifies a set of graphical symbols conventionally used for marking of distribution packages in their physical distribution chain to convey handling instructions. Unless otherwise stated, ISO 28219:2017 will use the term "item marking" to describe both the labelling and direct part marking (DPM) of an item, where DPM includes, but is not limited to, altering (e. dot peen, laser etch, chemical etch), as well as additive type processes (e. ink jet, vacuum. Any Material/Product specific Packaging, Palletization and Labelling instructions provided in the UNICEF tender, LTA and/or Purchase Order documents supersede the general instructions from this document. Organization for Standardization) is a worldwide committee has established committees. The work of preparing International Standard is normally standards organizations, electrotechnical collaboration standardization.
