

Sudan Fiber Optic Distribution Frame 24 Cores

Overview

ODF 24 Core is a high-density fiber optic distribution frame designed to meet the ever-increasing demands of today's network systems. This product is ideal for data centers, server rooms, and other communication distribution systems where space is limited. It is mainly used for cable inlet, grounding and fixing and the splicing between the terminal end and pigtail. It provides fiber fixing, splicing, termination, patching, and cable management in telecom rooms, data centers. DIGISOL Optical Distribution Frame provides cable interconnections between communication facilities that can integrate fiber splicing, fiber termination, fiber optic adapters and connectors in a single unit for High-Density capacity designed for 24 core to 144 core.
