

Super 6 AP Fiber Optic Composite Panel

Overview

This composite panel exists of two materials - A honeycomb structured core of 100% Polypropylene (PP) - An upper and bottom skin of 4 layers of fibre optics. Thanks to the combination of fibre optics and PP, the panel is very light and superstrong. The panel comes standard with an anti-slip layer. The Corning closet connector housing panels (CCH-CP) SC adapters are available in a variety of fiber counts for use with LANscape® solutions hardware products. They are designed for use with factory-installed or field-installable connectors and provide interconnect or cross-connect capabilities for. Our fiber patch panel offers options for flexible cable management and seamless integration with various cassettes and fiber optic accessories. Streamline high-density fiber optic connections in data centers with our MPO fiber adapter panel, offering efficient, high-volume terminations within. NG4access ® Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access ® Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration.
