

T-shaped cable tray connection

Overview

The Cable Tray T-Joint is a durable and versatile accessory designed to connect cable trays at a 90-degree angle, allowing for organized and efficient routing of cables in industrial and commercial installations. After the dipping process, the surplus zinc is blown off and one obtains an extra passivating coat (an ultra-thin protective coat) to prevent oxidation of the zinc coating (white rust). The coating thickness is usually expressed in g/m². Material: Made from high-quality galvanized steel or stainless steel for durability. - Simple connection using 2 screws on each side (optional)- Material: metal- T-piece for cable trays 60x100- for connecting 3 cable trays- CE certification- DIN 4102-12:1998, ISO 14001:2015, E90 (fire resistance), ISO 45001:2018-Galvanised-Installation: Insert cable trays into each other at the. us-trations without notice. All illustrations, descriptions and technical information included in this document are provided as indications and can cable trays are equivalent. Versatile connector that facilitates the creation of T-joints and Crossover. Fittings, cable trays, plug connection - T pieces, plug connection.
