

The distribution box is ready for shipment

Overview

The goods have passed quality inspection and completed packaging, all order information has been synchronized to the logistics system, and can be immediately arranged for shipment (also known as "Ready to Dispatch"). It is the last green light in the warehouse. Packaging your shipment correctly is crucial to making sure your inventory reaches us safely and is optimized for entry into our distribution centers. Important: All shipments delivered to Amazon Warehousing and Distribution (AWD) distribution centers must be packaged in closed boxes, regardless of. IMPORTANT: Failure to comply with any requirements listed in this document may result in the immediate refusal of inventory at the Amazon fulfillment center, disposal or return of inventory, blocking future shipments to the fulfillment center, charging for any unplanned services performed at the. The outbound delivery document is the central document in shipping. It forms the basis for further shipping activities such as picking, packing, and goods issue posting. After creating outbound delivery documents (normally for stock transport orders or sales orders), you can group them together in.
