

# Upstream equipment suppliers for optical modules

## Overview

Upstream optical devices manufacturers and suppliers: TFC, T&S Communications, Advanced Fiber Resources, Borui Technology, Optowide Technologies. Satisloh is a global leader in machine manufacturing for ophthalmic and precision optics lens production. Our core competency for precision optics manufacturers: individual machines and manufacturing solutions tailored to customer requirements for the production of spheres, aspheres, freeform. To help you choose the best partner, this article will analyze and introduce 10 companies in the optical transceiver industry chain for you. The optical module is in the middle of the industrial chain, and the upstream industry of optical modules mainly includes PCB, optical chips, optical. For more than 25 years Hitachi High-Tech, an opto-communication solutions provider, has served the fiber optic industry with long term, reliable, strategic materials partners. Please browse our various product pages and if something catches your eye feel free to follow the links to find out more.
