

What is GYTSA optical cable

Overview

GYTA fiber optic cable is a stranded loose tube outdoor cable widely used for overhead, duct, and even direct burial applications. It combines strong mechanical performance with superior water resistance. This comprehensive article aims to provide a detailed overview of. GYFTY53 is composed of 5 parts: Then what the true meaning of each part?

Below are the detail descriptions of each part. All are from standard YD/T 908-2020. Reinforcement Defalut (No symbol): Metal enhancement F: Non-metal enhancement N: No enhancement 3. A related GYTA type cable is available. The loose. This Specification covers the design requirements and performance standard for the supply of optical fibre cable in the industry. XCOM ensures a stable quality control system for our cable products through several programs including ISO 9001, ISO 14001 and OHS.
